101ST CONGRESS
2d Session

HOUSE OF REPRESENTATIVES

REPORT
101-608

MILITARY CONSTRUCTION APPROPRIATIONS BILL, 1991

JULY 19, 1990.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

---

Mr. HEFNER, from the Committee on Appropriations, submitted the following

REPORT

[To accompany H.R. 5313]

The Committee on Appropriations submits the following report in explanation of the accompanying bill making appropriations for military construction and family housing for the Department of Defense for the fiscal year ending September 30, 1991.

Summary of Committee Recommendations

The Committee recommends appropriations totaling $8,311,167,000 for fiscal year 1991 Military Construction and Family Housing. This is a decrease of $814,811,000 below the President's request of $9,125,978,000 and a decrease of $182,596,000 below the amount appropriated for fiscal year 1990. The Committee's recommendation includes $998,100,000 for the Base Realignment and Closure Account. When the base closure amount is excluded from the comparison, the recommendation is $680,696,000 below last year's level and $896,411,000 below the President's request.

The recommendations contained in this report provide for the highest priority military construction requirements given the need to substantially reduce the overall bill as a part of the Committee's deficit reduction effort.

Hearings

During the review of the Fiscal Year 1991 budget request, the Military Construction Subcommittee conducted hearings on individual functional areas of the program. These are contained in 6 volumes of printed hearings and additional classified transcripts and information in Committee files.

Conformance with Authorization Bill

The appropriations language for each account recommended in this bill is subject to authorization. When this bill was reported, the Armed Services Committee had not yet reported an authorization bill. However, the Committee is expected to consider projects recommended for authorization during conference action on this bill.

Impact of Continued Moratorium

The Committee believes that the Secretary of Defense's construction moratorium of January 24, 1990, and follow-on extensions of April 30 and June 14, have created unnecessary problems for the military construction program, the construction industry, as well as the quality of life in the military. While the first moratorium announcement may have been a prudent action, given the rapid change in Europe and the attendant re-evaluation of force structure, the decisions to extend the moratorium to November 15, 1990, in excess of a fiscal year, appears to be disruptive and unnecessary. For example, it does not make sense to defer all projects at locations where there is certainty that missions will remain. Some problems caused by the moratorium are as follows:

(1) Increase in project costs due to inflation;

(2) Increase in costs in retaining personnel for supervision and administration of construction projects;

(3) Increase in costs due to less competitive bidding because of the flood of projects that will occur on the market once the moratorium is lifted;

(4) Inability of DoD to administer the program effectively because of depleted work force;

(5) Lost savings for many of the delayed projects that would otherwise contribute to efficiencies and rapid payback;

(6) Needless crippling effect on many small business contractors, especially successful low bidders.

Deferral Disapproval

The Committee has disapproved the deferrals as reported by a special message of the Comptroller General on June 28, 1990 (H. Doc. 101-210). The message is transmitted pursuant to Section 1015 of the Congressional Budget and Impoundment Control Act of 1974, as amended which has the same effect as if such report of the Comptroller General were a special deferral message transmitted by the President. The Committee has taken this disapproval action in order to require the Department of Defense to conform to the requirements of the Impoundment Control Act rather than unilaterally withholding obligations through an improper moratorium process which continues to be extended. Therefore funds impacted by the moratorium shall be made available for obligation immediately upon enactment into law of this Act.

Rescission of Prior Year Authority

The Committee recommends rescission of a total of $286,419,000 for various military construction and family housing projects overseas as requested by the President in his special message of June 28, 1990 (H. Doc. 101-207). These rescissions are in addition to the rescission of $253,188,000 of military construction and family housing funds as contained in the fiscal year 1990 Dire Emergency Supplemental Appropriations Bill (P.L. 101-302). The recommended rescissions shall be derived from the following projects all of which are at overseas locations:

Military Construction, Army 1986–90:	
Flight Simulator Bldg, Wiesbaden GE	$50,000
Hardstand, Hanau GE	1,850,000
Subtotal	1,900,000
Military Construction, Army 1987–91:	
ADP Center, Rheinberg GE	150,000
Comm Center, Rheinberg GE	300,000
UPH w/Dining, Rheinberg GE	6,205,000
Range Complex, Mannheim GE	2,450,000
Dining Facility, Giessen GE	2,100,000
Tac Equip Shop, Hanau GE	3,700,000
Subtotal	14,905,000
Military Construction, Army 1988–92:	
CDC, Rheinberg GE	1,050,000
Maint Facility, Phase I, Rheinberg GE	5,430,000
CDC, Hainerburg GE	2,250,000
Tac Shop, Vilseck GE	5,700,000
Opns Bldg Mod, Stuttgart GE	5,400,000
Trng Exercise Fac, Kaiserslautern GE	5,900,000
Range Mod, Various Locations GE	2,000,000
Hardstand, Hanau GE	1,300,000
Subtotal	29,030,000
Military Construction, Army 1989–93:	
Barracks Modernization, Argyroupolis GR	660,000
Barracks Modernization, Perivolaki GR	660,000
IRETS Ranges, Erlangen GE	2,850,000
Acft Maint Hangar, Budingen GE	7,100,000
Industrial Ops Fac, Rheinberg GE	6,600,000
Physical Fitness Center, Rheinberg GE	5,800,000
Tact Equip Shop, Wiesbaden GE	2,250,000
Child Care Center, Taegu KO	990,000
Subtotal	26,910,000
Military Construction, Army 1990–94:	
Aircraft Parking Apron Refueling Fac, Hanau GE	8,300,000
Helicopter Parking Apron, Hanau GE	6,500,000
Class I Warehouse Addition/Modern, Hohenfels GE	3,550,000
Fuel Storage Facility, Hohenfels GE	1,800,000
Training Support Center, Hohenfels GE	1,450,000
Unaccompanied Personnel Housing, Hohenfels GE	3,150,000
Command Center Modernization, Stuttgart GE	9,400,000
Helicopter Parking Apron, Wuerzburg GE	7,900,000
Recreation Center, Location 276	1,950,000
Subtotal	44,000,000
Family Housing, Army 1988–92:	
Improvements to Housing, Wiesbaden GE	4,264,000
Family Housing, Army 1989–93:	
New Construction (88 units), Rheinberg GE	8,400,000
Military Construction, Navy 1990–94:	
Mess Hall, Camp Covington Guam	4,300,000
Child Development Center, NS Rota, Spain	1,900,000
Subtotal	6,200,000
Family Housing, Navy 1990–94:	
Construction Improvements, Various Overseas Locations	11,037,000
Military Construction, Air Force 1989–93:	
Spec Activity Fac, Andersen AFB Guam	2,800,000

Spec Support Fac, Andersen AFB Guam	1,900,000
Subtotal	4,700,000
Military Construction, Air Force 1990–94:	
Antenna Support Structure, Hahn GE	2,500,000
Training/Software Maintenance Fac, Hahn GE	1,400,000
Combat Rep Equip Storage Fac, Spangdahlem GE	1,250,000
Transient Dormitory, San Vito IT	2,750,000
Alter Munitions Storage Facility, Aviano IT	1,300,000
Munitions Storage Igloos, Aviano IT	950,000
Hydrant Fueling System, Lajes Field, Portugal	6,100,000
Add to/Upgrade Fire Station, Bentwaters UK	1,250,000
Alter Munitions Storage Fac, Bentwaters UK	2,450,000
F-15E Add to and Alter Flight Simulator Fac—Classified Location	740,000
Subtotal	20,690,000
Family Housing, Air Force 1988–92:	
Enlarge Storage/Ut, RAF Greenham Common UK	1,941,000
Family Housing, Air Force 1989–93:	
Improve SOQ, Andersen AFB, Guam	167,000
Family Housing, Air Force 1990–94:	
Construction Improvements, Various Overseas Locations	43,856,000
Military Construction, Defense Agencies 1989–93:	
Composite Medical Facility, Hahn GE	16,569,000
2nd Echelon Medical Fac, Geilenkirchen GE	450,000
Elementary School, Gelnhausen GE	1,482,000
Middle School, Giessen GE	2,197,000
High School, Giessen GE	5,430,000
Elem and High Schools Adds, Aviano IT	9,450,000
Subtotal	35,578,000
Military Construction, Defense Agencies 1990–94:	
Edwards Elementary School, Frankfurt GE	7,101,000
Elementary School Addition, Grafenwoehr GE	4,186,000
Elementary School Addition, Hohenfels GE	7,177,000
Middle/High School Addition, Hohenfels GE	9,902,000
Elementary School Addition, Upwood UK	4,175,000
Subtotal	32,541,000
Family Housing, Defense agencies 1990–94:	
National Security Agency Classified Project (3 units)	300,000
Grand total	286,419,000

The Committee notes that cancellation of some projects through rescissions, as requested by the Department, was not approved by the Committee because funding for such projects was never provided.

BURDENSHARING

The Committee supports the commitment to the alliance in Europe as well as the commitment to defense in the Pacific Basin and the Persian Gulf region. This equitable sharing of roles and responsibilities is a necessary foundation for collective security. In addition, the Committee has reduced funding for NATO Infrastructure by $170,400,000. However, the continuing political and economic growth of our European and Pacific allies has created conditions for their assuming a greater share of the cost for a mutual defense. The Committee has continually emphasized the need for

more burdensharing even though it recognizes that there has been progress.

The Committee directs the Department to expand the Japanese Facilities Improvement Program to include host nation financing of maintenance, repair, and improvement work. The Committee has denied funds for projects that are eligible for funding under the Japanese Facilities Improvement Program (JFIP) and the Korean Combined Defense Improvement Program. In addition the Committee has reduced funding overseas by about $287,000,000, or over 60 percent, to provide for other higher priority projects in the United States.

Comprehensive Base Structure Plan

The Committee is concerned about the actions of the Department of Defense directed at closing military bases in the United States (other than those taking place pursuant to Public Law 100–526) before formulation of a new Six-Year Defense Plan and related force structure which takes into account the ongoing developments in Europe and the Union of Soviet Socialist Republics. The Committee believes that such action is premature and may be economically inefficient in view of the potential need for increased use of existing military facilities inside the U.S. as the levels of American active military forces stationed in foreign locations are reduced. The Committee directs the Department of Defense, after consultation with the military departments, to provide to the Committee by February 1, 1991, a report on the impact on the military construction program of stationing 95 percent, 90 percent and 85 percent of all active U.S. military forces at locations inside the United States, assuming a 25 percent reduction in force structure over the next five years. The report should assume the continued availability of all military facilities and installations in the U.S. which are not scheduled for closure pursuant to P.L. 100–526 and should take into account the potential for using such facilities and installations for missions other than their current ones. The report should include information on the types (i.e., runways, taxiways, maintenance facilities, unaccompanied personnel housing, family housing) of construction projects included in the analysis of the impact on the military construction program. It should also include information on the number and type of active forces for each military service assumed in preparation of the report. The Committee is especially interested in reviewing the potential of a dual basing policy wherein currently foreign-based U.S. forces would be relocated to the United States with plans for rapid deployment for training and combat roles at foreign locations.

Guard and Reserve Programs

The Committee continues to support facility construction funding for the Guard and Reserve. As the Department reviews the Total Force Structure, given the reduced threat and the need for deficit reduction, the Committee does not consider it prudent to drastically reduce the Guard and Reserve programs while awaiting the completion of a Total Force Study. Therefore, the Committee does not support the Department's request to cut facility construction for

the Guard and Reserve by about 60 percent when it is estimated that there is a backlog of over $8.5 billion. The Committee has recommended increasing the funds for the Guard and Reserve by $225,717,000 and offsetting the increase with reductions to programs overseas. Despite the increase over the President's budget, the recommended funding for the Guard and Reserve Programs is under the 1990 level by $162,186,000, or 24 percent.

Overseas Construction vs. Domestic Construction

The Committee has recommended a reduction of $287,282,000 from the President's request for overseas construction. In addition, the Committee has recommended rescinding prior year funds in the amount of $286,419,000 for overseas projects. These rescissions, when combined with overseas rescissions of $237,188,000 as contained in the Fiscal Year 1990 Dire Emergency Supplemental Appropriations Act (P.L. 101-302) amount to a total of $523,607,000 in rescissions for overseas programs. The reductions were made for a variety of reasons such as uncertainty regarding sensitive base rights, the need for increased burdensharing, uncertainty regarding base closures and realignments, and potential for troop reductions when an agreement is implemented for Conventional Forces in Europe (CFE).

With the mandate to reduce military spending the Committee has determined that it is more appropriate to provide funding for projects in the United States that will help reduce the backlog of needed projects as well as provide for quality of life for military service men and women. In terms of backlog, the physical plant, as it exists today, averages more than 50 years of age and is in need of modernization. The funding level in this bill equates to a facilities replacement schedule of over 100 years. Given that the Committee finds the replacement schedule unsatisfactory because of budget constraints, the Committee is concerned about building installations overseas that will revert to host nations with little or no residual value once base rights expire or force reductions take effect.

Environmental Restoration—Overseas Bases

The Secretary of Defense is directed to report to the Committee by January 15, 1991 on current efforts and plans for environmental restoration at closure sites of U.S. military facilities outside the United States. This report should include guidelines and anticipated policy for determining the extent of environmental clean-up and whether clean-up costs will be considered in determining residual value of closed bases. An analysis of costs associated with this clean-up is to be provided, including any anticipated host country assistance.

Medical Construction Design Costs

Recent design costs for Department of Defense medical facilities have been much higher than design costs for other more standard type facilities. Current law limits the payment of fees for architectural and engineering services to not more than six percent of the

estimated project cost. Design notifications submitted by the Department indicate that A/E costs will be 16 percent of the project cost.

If the unique requirements of medical facilities are found to justify design costs above six percent of the estimated project cost, the Department is encouraged to propose the necessary legislative revisions.

Defense Management Review

The Department is currently conducting a defense management review to consolidate functions involving laboratories and warehouses. Therefore, the Committee prohibits obligation of funds provided in the bill for any laboratory or warehouse project unless the Secretary certifies that the requirement is still valid in light of the studies to consolidate such functions.

Project Cancellation

The Committee is concerned with the lack of reporting of project cancellations in a timely manner. Therefore, the Department is directed to notify the Committees on Appropriations of any project 21 days prior to cancellation.

Stimulating U.S. Business Overseas

The Committee continues to place emphasis on assuring that American firms have the opportunity to gain and retain a fair share of American-financed military construction projects throughout the world, and also to assure foreign responsiveness to U.S. requirements and interests. These actions include:

—An American preference policy in the award of construction contracts in the Pacific Region.

—An American preference policy in the award of architect and engineering contracts in Japan and in NATO countries.

Financial Management

The Committee continues to support the current reprogramming threshold of 20 percent of the funded line item amount or $1,500,000, whichever is less.

Quality of Life

Improving the quality of living and working conditions in the military is an essential factor in the improvements to overall military readiness. The testimony presented indicates that military construction programs that address quality of life issues have a tremendous payoff in terms of retention and improved readiness.

BARRACKS

The Committee is concerned that dilapidated World War II vintage barracks continue to affect the morale and performance of our Service members. Such housing may have been adequate and appropriate in its day, with the prevalent standards of living, con-

scription, and wartime mobilization. However, it no longer meets the requirements of today's all-volunteer force.

The Committee recommends funding of all barracks projects in the United States, as requested, and has recommended additional modernization projects to improve the quality of life.

CHILD CARE CENTERS

Today's all-volunteer force has greatly increased the need for child care facilities. More than half of all enlisted personnel are married, and half of these enlisted families have a youngest child under the age of six. There is also an increase in the number of women in the Service, the number of dual military couples, the number of working spouses of military personnel, and the number of single military parents.

The Committee's recommendation includes $29,070,000 for child care projects at 13 locations. This action funds all child care projects as requested by the Department together with funding new initiatives.

MEDICAL PROGRAM

The Committee continues to support the Department's dual mission for medical care through maintaining readiness in case of war and providing quality and timely care of the peacetime beneficiary population. In this bill, the Committee has recommended $276,905,000 for medical facilities.

Solar Energy Technologies/Photovoltaics

The Committee directs the Secretary to report to the Committee, no later than March 31, 1991, on the extent of the Department's current efforts to utilize renewable energy systems, including an update on the current activities of the Tri-Service Panel on Photovoltaics, and make recommendations to the Committee on ways to maximize the use of these technologies in Department of Defense facilities and for remote and modular power systems. The report should include, but not be limited to, comparisons between the current life-cycle costs of renewable energy technologies (photovoltais, wind, geothermal, and solar thermal energy systems), and "traditional", fossil fuel-based energy technologies. The comparisons should incorporate a broad range of locations, climate conditions, air quality conditions and project types and sizes. The Committee further expects the report to include a plan for installing renewable-based systems capable of generating a minimum of 100 megawatts by the end of 1996. In addition, the Secretary is directed to consult with the Department of Energy, representatives of the various renewable energy industries and associations, and utilities in the preparation of the Department's analysis and recommendations.

Program, Project and Activity

For purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987,

(Public Law 100-119), the term "Program, Project and Activity" will continue to be defined as the appropriation account.

MILITARY CONSTRUCTION, ARMY

Fiscal Year 1990 Appropriation	$819,129,000
Fiscal Year 1991 Estimate	774,900,000
Committee Recommendation in the Bill:	
Appropriation	747,067,000
Rescission	−116,745,000
Net	630,322,000
Comparison with:	
Fiscal Year 1990 Appropriation	−188,807,000
Fiscal Year 1991 Estimate	−144,578,000

The Committee recommends a net total of $630,322,000 for Military Construction, Army for fiscal year 1991. This is a decrease of $144,578,000 below the budget request for fiscal year 1991, and a decrease of $188,807,000 below the amount appropriated for fisca. year 1990.

COMPARISON WITH BUDGET REQUEST

The Committee recommends the following additions and deletions to the amounts and line items as proposed by the Department:

Alabama—Anniston Army Depot: Ammunition demilitarization facility	−$49,400,000
North Carolina—Fort Bragg:	
Land acquisition (Camp MacKall)	+720,000
Addition, SOF headquarters	+4,950,000
Texas—Fort Bliss:	
Barracks modernization	+10,200,000
Barracks modernization	+9,800,000
Utah—Tooele Army Depot:	
Ammunition demilitarization facility	+40,400,000
Cryofracture demilitarization facility site preparation	+10,000,000
Germany—Germany Various: Record fire ranges	−4,053,000
Germany—Giessen: Tank crew combat course	−2,250,000
Germany—Grafenwoehr:	
Applied instruction facility	−5,700,000
Ready building	−3,500,000
Germany—Heilbronn: Hardstand and wash facility	−5,500,000
Germany—Hohenfels Training Area:	
Education center addition	−610,000
Library addition	−550,000
Military police station addition	−1,300,000
Physical fitness training center	−3,350,000
Germany—Mannheim: Vehicle maintenance sheds	−7,600,000
Germany—Vilseck:	
Chapel center/religious education facility	−3,300,000
Fire station	−1,250,000
Multi-purpose auditorium facility	−2,550,000
Korea—Camp Casey: Barracks	−8,690,000
Korea—Camp Gary Owen: Tactical equipment shop	−1,800,000
Korea—Camp Hovey: Tactical equipment shop	−8,500,000
Unspecified Worldwide Locations—Planning and design	+6,000,000

ALABAMA—ANNISTON ARMY DEPOT: AMMUNITION DEMILITARIZATION FACILITY

The Committee recommends funding $4,900,000 instead of $54,300,000 as requested in the budget. The reduction is made with-

out prejudice since total project cost has increased from $54,300,000 to $82,900,000 and the project is not expected to be initiated until late in fiscal year 1991. Therefore, the Department is directed to request the balance of funding, estimated at $78,000,000 in the fiscal year 1992 budget.

ARIZONA—FORT HUACHUCA (LIBBY ARMY AIRFIELD): RUNWAY DEFECTS

The Committee directs the Army to design correction of major defects in the runway at Libby Army Airfield and to request construction funding in the fiscal year 1992 budget.

LOUISIANA—FORT POLK: HEADQUARTERS COMPLEX

The Committee directs the Army to expedite the completion of design of a replacement for the current World War II vintage headquarters complex at Fort Polk, Louisiana.

NORTH CAROLINA—FORT BRAGG: ACCESS ROAD

The Committee directs the Army to expedite design of an extension of approximately 1.5 miles to Fort Bragg's All American Freeway. This access road project is entirely on-post, and is necessary to reduce traffic congestion in the center of the installation, to facilitate recall of off-post personnel for emergency deployment, and to facilitate construction of the replacement medical center and to support access to medical services. The Committee directs the Army and the Department to submit a budget request for construction funding in the earliest fiscal year in which the project will be executable.

TEXAS—RED RIVER ARMY DEPOT (RRAD): CENTRAL DISTRIBUTION CENTER

The Committee denies the Department of Defense (DOD) request to rescind the $39 million appropriated for the construction of the Central Distribution Center (CDC) project. The Committee further directs the Department of Defense to not use or transfer any of the $39 million for any purpose not solely related to the construction of the CDC project at Red River Depot.

Approximately $20 million has already been spent on the CDC project. It is the Committee's understanding that when all the expenses necessary to terminate the CDC are totaled, the cost to terminate the CDC could be as high as $40 million or more. In addition, Red River Army Depot could potentially be an outstanding choice to handle the Defense Logistics Agency (DLA) requirements in the center of the nation, the section of America containing the largest percentage of our active military population.

The Committee therefore directs the Department of the Army and the Secretary of Defense to complete an impartial study of the most effective sites in terms of cost, delivery, productivity and readiness before the DLA makes final any decisions concerning supply consolidation. The Committee further directs that the study shall review and explore RRAD and the CDC's potential role in the Department of Defense's new supply consolidation network. The Committee expects DOD to heavily weigh cost factors, labor rates, transportation time and costs, delivery time and costs, capacity to

expand on site and demonstrated efficiency of current operation in this study. The Committee directs the study shall be submitted to the Committee by January 2, 1991.

UTAH—TOOELE ARMY DEPOT: AMMUNITION DEMILITARIZATION FACILITY

The Committee recommends funding of $40,400,000 to complete the chemical demilitarization facility at Tooele Army Depot. The funding, when added to the $49,600,000 appropriated in fiscal year 1989 amounts to $89,600,000. The Committee considers completing Tooele to be a priority since Tooele contains about 42 percent of current chemical weapons stockpile. In addition, the Committee understands that the need to upgrade access roads at Tooele Army Depot is due to a proposal to utilize heavy On-Site Containers. However, there is uncertainty as to the need for these containers. Therefore, the Army should re-evaluate the requirement to upgrade access roads at a cost of about $5 million and report to the Committee its plan prior to construction.

UTAH-TOOELE ARMY DEPOT: CHEMICAL DEMILITARIZATION—CRYOFRACTURE

The Committee has recommended an increase of $6,000,000 in planning and design funds, and directs the Army to expedite design of a demonstration plant utilizing cryofracture technology. In addition, $10,000,000 has been provided for necessary site preparation for construction of this facility at Tooele Army Depot, Utah. It is the Committee's belief that cryofracture continues to offer the possibility for significant cost savings and reiterates its support for construction of a demonstration plant.

Military Construction, Navy

Fiscal Year 1990 Appropriation	$1,139,250,000
Fiscal Year 1991 Estimate	1,113,300,000
Committee Recommendation in the Bill:	
Appropriation	1,137,278,000
Rescission	−6,200,000
Net	1,131,078,000
Comparison with:	
Fiscal Year 1990 Appropriation	−8,172,000
Fiscal Year 1991 Estimate	+17,778,000

The Committee recommends a net total of $1,131,078,000 for Military Construction, Navy for fiscal year 1991. This is an increase of $17,778,000 above the budget request for fiscal year 1991, and a decrease of $8,172,000 below the amount appropriated for fiscal year 1990.

Comparison With Budget Request

The Committee recommends the following additions and deletions to the amounts and line items as proposed by the Department:

Alaska—Amchitka Island Fleet Surveillance Spt Cmd: Electronic installation	−$21,000,000
California—Miramar Naval Air Station:	
Child development center	+2,300,000

Tactical aircrew combat training facility	+1,250,000
California—Monterey Fleet Numerical Oceanography Ctr: Computer center	+6,010,000
California—San Diego Naval Submarine Base: Child development center	+4,130,000
Georgia—Kings Bay Naval Submarine Base: Community impact assistance	+10,800,000
Maryland—Indian Head Naval Ordnance Station: Chemistry laboratory	+6,000,000
North Carolina: Cherry Point Marine Corps Air Station: Aviation museum	+2,000,000
Rhode Island—Newport Naval Education and Training Center: Child development center	+1,000,000
Rhode Island—NUSC: Integrated propulsion/acoustic facility	+13,700,000
Virginia—Norfolk Naval Shipyard: Ship services support facility	+14,600,000
Virginia—Quantico Marine Corps Combat Dev Command: Marine Corps academic research Library	−14,150,000
Washington—Puget Sound Naval Shipvard: Land acquisition	+20,000,000
Iceland—Keflavik Naval Communications Station: Communication center	−10,248,000
Italy—Sigonella Naval Air Station: Engine maintenance shop addition	−1,850,000
Japan—Iwakuni Marine Corps Air Station: Hangar conversion	−3,017,000
Spain—Rota Naval Communication Station: Operations building upgrade	−1,105,000
United Kingdom—London Personnel Support Activity: Pay and personnel support office	−442,000
Various Locations—Land acquisition	−6,000,000

ALASKA—AMCHITKA FLEET SURVEILLANCE SPT COMD: ELECTRONIC INSTALLATION

The budget request includes $31,000,000 for the electronic installation related to the relocatable over-the-horizon radar at Amchitka, Alaska. The Committee has recommended phased funding for this project, and has included $10,000,000 for fiscal year 1991. This action is without prejudice and the Department is directed to include funds for completion in the fiscal year 1992 budget request.

CALIFORNIA—MARE ISLAND NAVAL SHIPYARD

The Committee directs the Navy to expedite design of the following projects at the Mare Island Naval Shipyard:

Naval Electronics Engineering Center
Marine Corps Bachelor Enlisted Quarters
Entrance Road Realignment
Computer Building
Hazardous/Flammable Storage Building

WORLDWIDE, VARIOUS LOCATIONS—LAND ACQUISITION

The budget request includes $10,660,000 for land acquisition at four locations. Included within this request is $6,000,000 to reimburse the General Services Administration for the July 1989 transfer of 14 acres of "Barracks K" land at the Naval Annex in Arlington, Virginia. The Navy has occupied this property for more than 20 years under a series of GSA permits to build and operate a parking lot for the Naval Annex. The Navy now has full custody and accountability for the property. Therefore, the Committee has reduced the budget request by $6,000,000, and directs that no funds in this act are available to reimburse GSA for the Barracks K property.

GEORGIA—KINGS BAY NAVAL SUBMARINE BASE: COMMUNITY IMPACT ASSISTANCE

The Committee has approved $10,800,000 for community impact assistance at the Kings Bay Naval Submarine Base. Of this amount, $1,200,000 is provided for Community Impact Assistance in Nassau County, Florida.

WASHINGTON—WHIDBEY ISLAND NAS: OPERATIONS AND MAINTENANCE TRAINER FACILITY (INCR I)

The Committee understands that the Navy is considering a change in basing plan that would involve basing the A–12 at Lemoore NAS while transferring Pacific P–3 operations from Moffett NAS to Whidbey Island. Since the final decision has not been made, the Committee has provided funds but will entertain a reprogramming request to relocate this facility if accompanied by a detailed report on overall Navy basing plans for both the A–12 and P–3 on the west coast.

JAPAN—IWAKUNI MARINE CORPS AIR STATION: HANGAR CONVERSION

The Committee has not recommended funding for this project, and directs the Department to seek host nation funding through the Japanese Facilities Improvement Program.

MILITARY CONSTRUCTION, AIR FORCE

Fiscal Year 1990:	
Appropriation	$1,227,296,000
Rescission	−18,500,000
Net	1,208,796,000
Fiscal Year 1991 Estimate	1,376,200,000
Committee Recommendation in the Bill:	
Appropriation	949,446,000
Rescission	−25,390,000
Net	924,056,000
Comparison with:	
Fiscal Year 1990 Net Appropriation	−284,740,000
Fiscal Year 1991 Estimate	−452,144,000

The Committee recommends a net total of $924,056,000 for Military Construction, Air Force for Fiscal Year 1991. This is a decrease of $452,144,000 below the budget request for fiscal year 1991, and a decrease of $284,740,000 below the net amount appropriated for fiscal year 1990.

COMPARISON WITH BUDGET REQUEST

The Committee recommends the following additions and deletions to the amounts and line items as proposed by the Department:

California—Castle AFB:	
Combat crew training school	+$3,000,000
Standardization evaluation center	+2,200,000
Strategic command center	+5,000,000
California—Edwards AFB: Corrosion control facility	+7,000,000
Colorado—Air Force Academy, Colorado Springs:	
Consolidated Education and Trng Fac (Phase I)	+15,000,000

Colorado—Lowry AFB: Child Development Center	+4,550,000
Indiana—Grissom AFB: Renovate dormitory	+2,500,000
Kansas—McConnell AFB:	
Dormitory	+9,750,000
Consolidated education center	+3,600,000
Louisiana—Barksdale AFB:	
Peacekeeper—add to communications facility	−730,000
Peacekeeper—add/alter integ maint facility	−2,150,000
Peacekeeper—garrison facilities	−56,150,000
Peacekeeper—missile ops maint facility	−3,050,000
Peacekeeper—road, railroad and utilities	−7,600,000
Peacekeeper—training train shelter	−2,800,000
Maryland—Andrews AFB: Child development center annex	+3,850,000
Mississippi—Columbus AFB: Bachelor officer quarters upgrade	+2,700,000
Missouri—Whiteman AFB: B–2 General reduction	−37,050,000
New Mexico—Holloman AFB realignment:	
Add/alter fuel system maintenance dock	−2,200,000
Alter avionics shop	−850,000
Alter squadron operations	−2,000,000
Conventional munitions shop	−950,000
Flight simulation training	−3,400,000
Munitions storage facility	−1,600,000
Upgrade utility systems	+11,000,000
New York—Griffiss AFB:	
Add/alter integrated maintenance facility	+2,300,000
Munitions storage igloos	+2,200,000
North Dakota—Grand Forks AFB:	
Peacekeeper—add to and alter comm maint facility	−50,000,000
Peacekeeper—add to communications facility	−800,000
Peacekeeper—land acquisition	−1,000,000
Peacekeeper—missile ops/integ maint facility	−5,500,000
Peacekeeper—road, railroad and utilities	−7,900,000
Peacekeeper—training train shelter	−3,000,000
Oklahoma—Tinker AFB: Land acquisition	+1,850,000
Tennessee—Arnold Engineering Dev Center: Large rocket test facility (J–6) Phase III	−109,300,000
Utah—Hill AFB:	
Automated tire storage facility	+5,000,000
Electrical upgrade	+407,000
ICBM non-destructive inspection bunker	+2,800,000
Missile maintenance shop	+2,350,000
Peacekeeper—ordnance storage facility	−3,250,000
Peacekeeper—stage storage facility	−3,250,000
Washington—Fairchild AFB:	
Peacekeeper—add/alter comm maint facility	−990,000
Peacekeeper—garrison facilities	−73,000,000
Peacekeeper—land acquisition	−1,000,000
Peacekeeper—missile ops maint facility	−6,900,000
Peacekeeper—road railroad and utilities	−11,200,000
Peacekeeper—training train shelter	−3,750,000
Wyoming—F.E. Warren AFB: Peacekeeper dormitory	−5,200,000
Germany—Bitburg AB: Add to physical fitness center	−2,000,000
Germany—Hahn AB: Upgrade water storage and distribution system	−4,300,000
Germany—Marienfelde: Upgrade operations facility	−1,621,000
Germany—Rhein-Main AB: Communications control center	−3,250,000
Germany—Spangdahlem AB:	
Add/alter water storage and distrib system	−4,900,000
Upgrade sewage treatment plant sewer system	−4,350,000
Honduras—La Mesa AB: Airfield improvements	−12,600,000
Honduras—Palmerola AB: C130-aircraft apron	−4,600,000
Italy—Ghedi Airfield: Alter munitions storage facility	−550,000
Italy—Rimini airfield: Alter munitions storage facility	−510,000
Italy—San Vito: Alter dormitory	−2,750,000
Japan—Kadena AB: Fire protection KC135 maintenance facilities	−2,950,000
Korea—Kunsan AB:	
Physical fitness complex	−5,300,000

Squadron operations facility	−6,000,000
Upgrade electrical dist system—phase III	−5,700,000
Korea—Osan AB:	
Aircraft support equipment shop/storage facility	−1,800,000
Base operations facility	−1,950,000
Fire station	−4,650,000
Replace taxiway pavement—phase I	−5,500,000
Philippines—Clark AB: Control tower	−710,000
United Kingdom—High Wycombe Dormitory	−4,200,000
United Kingdom—RAF Alconbury:	
Add to and alter physical fitness center	−3,200,000
Alter dormitories	−4,100,000
United Kingdom—RAF Bentwaters: Central post office	−1,500,000
United Kingdom—RAF Chicksands: Satellite communications terminal	−12,200,000
United Kingdom—RAF Lakenheath: Alter munitions storage facility	−4,950,000
United Kingdom—RAF Mildenhall: Add to and alter physical fitness center	−1,100,000

ARIZONA-WILLIAMS AFB: AUXILIARY FIELD/LAND ACQUISITION

The Committee has approved $5,500,000 for the Air Force to acquire land to build an auxiliary airfield for Williams Air Force Base in Arizona. Currently, the Air Force is using the Coolidge Municipal Airport at Coolidge, Arizona, for training missions from Williams AFB for a nominal charge. This contract currently is being renegotiated by the Air Force and the City of Coolidge. An agreement by the same two parties on such a contract would negate the need for the land acquisition and the $5,500,000 appropriation. The Committee would strongly prefer a lease arrangement rather than spending $5,500,000 for land acquisition, and encourages the Air Force and the City of Coolidge to reach such an agreement as quickly as possible.

CALIFORNIA—NORTON AFB: BALLISTIC MISSILE OFFICE

The Committee has included bill language prohibiting the relocation of the Ballistic Missile Office from Norton Air Force Base, California.

The Base Realignment and Closure Commission recommended that the Ballistic Missile Office (BMO) remain at Norton AFB, California. Pursuant to P.L. 100–526, the Commission's recommendations are legally binding. In March 1989, BMO was renamed the Ballistic Systems Division (BSD). In May 1990, the Air Force announced that it was disestablishing BSD, changing its name to the Ballistic Missile Organization, and merging its operations and personnel with Space Systems Division. No personnel were relocated and no change of function appears to have resulted from this action. However, the Air Force has announced that it is now considering relocating the Ballistic Missile Organization from Norton AFB. The Committee objects to such an action since it appears to be in violation of the Base Realignment and Closure Commission's recommendations.

CALIFORNIA-VANDENBERG AFB: TITAN IV LAUNCH COMPLEX PHASE I

The Committee recommends funding of $19,200,000 for Phase I of the Titan IV complex. The Committee understands that the record

of decision is still pending as to whether to construct a new launch complex (SLC 7) or modify the existing launch complex (SLC 6). The Committee believes that SLC 6 appears to be the more economical alternative and could possibly provide a launch capability one to two years earlier.

CALIFORNIA—VANDENBERG AFB: LAND ACQUISITION OPTION

The Committee recommends funding of $10,000,000 as the first phase to acquire land options adjoining the Vandenberg Air Force Base. The Committee supports the Air Force's efforts in negotiating for easement restrictions providing it is less than fee value.

COLORADO—AIR FORCE ACADEMY: CONSOLIDATED EDUCATION AND TRAINING FACILITY

The Committee recommends phase funding of $15,000,000 for construction of a consolidated education and training facility at the Air Force Academy. The Department is directed to request the balance of funding (estimated at $21,000,000) as part of the fiscal year 1992 budget.

MARYLAND—ANDREWS AFB: DORMITORY

The Committee directs the Air Force to initiate design of a 240 person junior enlisted dormitory, utilizing approximately $880,000 of the funds provided for planning and design. This project will replace 40 year old wooden structures.

MISSOURI-WHITEMAN AFB: B–2 FACILITIES

The Committee recommends funding of $55,000,000 instead of $92,050,000 for continuation of facility construction at Whiteman AFB, Missouri. This amount, when combined with $65,000,000 in fiscal year 1990 funds that have been deferred by the Department's construction moratorium, provides for a combined total of $120,500,000 in available funds for construction during fiscal year 1991.

NEVADA—TONOPAH AFB: RELOCATION OF F–117A WING

The Committee recommends funding of $11,000,000 to upgrade utility systems at Holloman AFB, New Mexico to support the proposed relocation of the F–117A aircraft from Tonopah AFB. However, the General Accounting Office (GAO) is evaluating the Air Force's economic justification for selecting Holloman AFB instead of Nellis AFB as the recipient base. Therefore, until GAO certifies to the Committee that it is more economical to relocate the Wing to Holloman AFB as opposed to Nellis AFB, the Air Force is prohibited from obligating the funds to initiate any relocation.

TENNESSEE—ARNOLD ENGINERING DEV CENTER: LARGE ROCKET TEST FACILITY (J–6) PHASE III

The Committee has deferred without prejudice the request of $109,300,000 for Phase III of construction, because this phase cannot be executed during fiscal year 1991.

VARIOUS—MX RAIL GARRISON

The Committee has deferred without prejudice MX Rail Garrison funding of $242,720,000 for three newly proposed operational bases at Grand Forks AFB, North Dakota; Barksdale AFB, Louisiana; Fairchild AFB, Washington and one project at F.E. Warren AFB, Wyoming. The funding has been deferred without prejudice because of uncertainty as to deployment of the rail garrison system. However, funding has previously been provided in the amount of $89,850,000 for garrison facilities at F.E. Warren AFB, Wyoming but deferred from obligation by the Department's construction moratorium. The Committee directs the Department to continue to defer such funds until a deployment decision is finalized.

Listed below are the Committee's recommendations for deferred funding:

Operational Bases:	
Barksdale AFB, LA	$72,480,000
Grand Forks AFB, ND	68,200,000
Fairchild AFB, WA	96,840,000
F.E. Warren AFB, WY	5,200,000
Total	$242,720,000

JAPAN—KADENA AB: FIRE PROTECTION KC 135 MAINTENANCE FACILITIES

The Committee has not recommended funding for this project, and directs the Department to seek host nation funding through the Japanese Facilities Improvement Program.

KOREA-KUNSAN AB: SQUADRON OPERATIONS FACILITY

The Committee has not recommended funding $6,000,000 for this project. The Department is directed to seek host nation funding for this project through the Korean Combined Defense Improvement Program.

KOREA—OSAN AB: AIRCRAFT SUPPORT EQUIPMENT SHOP/STORAGE FACILITY

The Committee has not recommended funding $7,800,000 for this project. The Department is directed to seek host nation funding for this project through the Korean Combined Defense Improvement Program.

OVERSEAS VARIOUS—ALTER MUNITIONS STORAGE FACILITIES

The Committee's actions regarding Alter Munitions Storage Facilities at several sites are without prejudice to the overall modification program or specific locations. The Department is encouraged to maintain program continuity with NATO funding and to re-address the requirements for this program in the fiscal year 1992 budget request.

MILITARY CONSTRUCTION, DEFENSE AGENCIES

Fiscal Year 1990:	
Appropriation	$537,440,000

Rescission	−21,800,000
Net	515,640,000
Fiscal Year 1991 Estimate	787,500,000
Committee Recommendation in the Bill:	
Appropriation	625,326,000
Rescission	−68,119,000
Net	557,207,000
Comparison with:	
Fiscal Year 1990 Net Appropriation	+41,567,000
Fiscal Year 1991 Estimate	−230,293,000

The Committee recommends a net total of $557,207,000 for Military Construction, Defense Agencies for fiscal year 1991. This is a decrease of $230,293,000 below the budget request for fiscal year 1991, and an increase of $41,567,000 above the net amount appropriated for fiscal year 1990.

Comparison With Budget Request

The Committee recommends the following additions and deletions to the amounts and line items as proposed by the Department:

California—Defense Language Institute: Monterey outdoor athletic facilities	−$2,168,000
Georgia—Fort Benning: Elementary school replacement	+7,900,000
New Mexico—White Sands Missile Range: Large blast/thermal simulator	−19,800,000
Ohio—Defense Construction Supply Center, Columbus: Bulk storage warehouse	−13,530,000
Texas—Fort Sam Houston: Hospital Replacement Phase IV	−27,000,000
Utah—Defense Depot Ogden: Temporary lodging facility	+1,100,000
Virginia—Fort Lee: Hospital life safety upgrade	+2,200,000
Germany—Darmstadt: Elementary/junior high additions	−7,276,000
Germany—Giessen: Dispensary/dental clinic replacement	−5,000,000
Germany—Idar Oberstein: Elementary school addition	−2,189,000
Germany—Kaiserslautern: Elementary/junior and high school additions	−13,341,000
Germany—Mannheim: High school addition	−8,708,000
Germany—Nellingen: Elementary school addition	−3,187,000
Germany—Nuernberg: Dispensary/dental clinic replacement	−5,800,000
Germany—Ramstein: Elementary/junior high additions	−12,217,000
Germany—Rhein-Main AB: Aeromedical evacuation logistics facility	−870,000
Italy—Aviano AB: Second echelon medical logistics storage	−1,100,000
Italy—Vicenza: Hospital replacement	−28,000,000
Various Locations: Hot lunch facilities	−15,188,000
Unspecified Worldwide Locations:	
Planning and design (Washington HQ services)	−10,000,000
Unspecified minor construction (DoDDS)	+2,000,000

GEORGIA—FORT BENNING: ELEMENTARY SCHOOL REPLACEMENT

The Committee has approved $7,900,000 for a project to replace the Wilbur Elementary School for approximately 620 students from the Davis Hill/South Bouton Heights housing area at Fort Benning, Georgia. The Committee has taken this action because the project is the Army's top priority for Section 6 Schools. However, there are 52 potential Section 6 projects totalling $101,111,000 and no long range program or policy to execute the program. Therefore, the Committee prohibits the obligation of funds for the Fort Benning project until the Department reports to the Committee its program and policy for construction of Section 6 Schools.

NEW MEXICO—WHITE SANDS MISSILE RANGE: LARGE BLAST/THERMAL SIMULATOR

The budget request includes $64,800,000 for the large blast/thermal simulator at the White Sands Missile Range. The Committee has recommended phased funding for this project, based on assurances that this will not delay the completion of the project, and has included $45,000,000 for fiscal year 1991. The Department is directed to include funds for completion of this project in the fiscal year 1992 budget request.

NORTH CAROLINA—FORT BRAGG: HOSPITAL REPLACEMENT

The Committee is concerned that the contract for planning and design of the Replacement Medical Center at Fort Bragg has not yet been awarded. The Department has assured the Committee that this contract will be awarded not later than August 6, 1990. The Department is directed to include funds for site preparation in the fiscal year 1992 budget.

OHIO—DEFENSE CONSTRUCTION SUPPLY CENTER, COLUMBUS: BULK STORAGE WAREHOUSE

Funds for this project were appropriated in fiscal year 1990. A proposal to utilize this project as a source of funds for a reprogramming action was denied. Therefore it is not necessary to provide replacement funds as proposed in the budget.

TEXAS—FORT SAM HOUSTON: HOSPITAL REPLACEMENT PHASE IV

The Committee has approved $50,000,000 for Phase IV of the Brooke Army Medical Center Hospital Replacement. This is a reduction without prejudice of $27,000,000 from the amount requested in the budget, and represents the full amount required for work that can be completed during fiscal year 1991.

VIRGINIA—PENTAGON RENOVATION

The Committee has deferred without prejudice the request of $10,000,000 to begin planning and design of a $1 billion proposed Pentagon renovation. The Committee has deferred funding pending resolution of jurisdiction between the General Services Administration and the Department of Defense.

ITALY—VICENZA: HOSPITAL REPLACEMENT

The Committee has deferred without prejudice $28,000,000 to replace the existing hospital at Vicenza, Italy, due to budget con-

straints. The Committee will reconsider this project if it is resubmitted in a future budget.

DOD OVERSEAS DEPENDENT SCHOOLS

The budget request for overseas dependent schools totals $75,379,000. The Committee has deferred the majority of these projects without prejudice, pending overseas realignments. The Committee has approved funding for the top three priorities (Frankfurt and Landstuhl, Germany, and Harrogate, U.K.), and has initiated a $2,000,000 line item for unspecified minor construction related to overseas force structure adjustments.

NORTH ATLANTIC TREATY ORGANIZATION INFRASTRUCTURE

Fiscal Year 1990 Appropriation	$424,714,000
Fiscal Year 1991 Estimate	420,400,000
Committee Recommendation in the Bill	250,000,000
Comparison with:	
Fiscal Year 1990 Appropriation	−174,714,000
Fiscal Year 1991 Estimate	−170,400,000

The Committee recommends a total of $250,000,000 for North Atlantic Treaty Organization Infrastructure for fiscal year 1991. This is a decrease of $170,400,000 below the budget request for fiscal year 1991, and a decrease of $174,714,000 below the amount appropriated in fiscal year 1990.

NATO INFRASTRUCTURE REDUCTIONS

The Committee recommends funding of $250,000,000 for NATO Infrastructure instead of $420,400,000 as requested. The recommended amount is more than required to fund on-going commitments. In addition, there is at least $135,000,000 in outstanding recoupments from prefinanced projects that can be applied against new initiatives. The Department, as a burdensharing initiative, should actively pursue the recoupments.

RELOCATION OF THE 401ST TACTICAL FIGHTER WING TO CROTONE, ITALY

The Committee has included language prohibiting any fiscal year 1991 funds in this Act and prior year unobligated funds, including recoupments from being obligated for construction of facilities at Crotone, Italy until December 31, 1990. This would allow sufficient time for the National Defense Authorization Act for fiscal year 1991 to be enacted into law. The Committee has taken this action because of uncertainties as to whether Congress will continue to approve and authorize funding for the Crotone base. In addition, the General Accounting Office is currently evaluating the Department's justification for selecting the Crotone site. For these reasons, the Committee considers it prudent to await the outcome of the authorization process before obligating any further funds.

MILITARY CONSTRUCTION, RESERVE COMPONENTS

Fiscal Year 1990 Appropriation	$668,281,000
Fiscal Year 1991 Estimate	280,378,000
Committee Recommendation in the Bill	506,095,000
Comparison with:	
Fiscal Year 1990 Appropriation	−162,186,000
Fiscal Year 1991 Estimate	+225,717,000

The Committee recommends a total of $506,095,000 for Military Construction, Reserve Components for fiscal year 1991. This is an increase of $225,717,000 above the budget request for fiscal year 1991, and a decrease of $162,186,000 below the amount appropriated for fiscal year 1990. The Committee's recommended action on each Reserve Component project is reflected in the State list at the end of this report.

The Committee recommends approval of Military Construction as follows:

Component	Requested	Recommended
Army National Guard	$66,678,000	$201,558,000
Air National Guard	66,500,000	135,240,000
Army Reserve	59,300,000	68,297,000
Navy Reserve	50,200,000	63,300,000
Air Force Reserve	37,700,000	37,700,000
Total	280,378,000	506,095,000

FURNITURE AND COLLATERAL EQUIPMENT

The Committee is concerned that it is possible that new facilities are being provided for the Reserve Components, but that funding to properly furnish and equip these facilities may be insufficient. Therefore, the Department is directed to report on the feasibility of programming Military Construction funds for furniture and collateral equipment associated with new construction projects.

Comparison With Budget Request

The Committee recommends the following additions to the amounts and line items as proposed by the Department:

Army National Guard:	
California—Camp San Luis Obispo: Barracks	+$9,140,000
Colorado—Watkins: Armory	+2,441,000
Connecticut—Camp O'Neill: Training facilities, Phase II	+2,900,000
Florida—Camp Blanding:	
Aviation fuel facility	+275,000
Light anti-armor weapon range	+550,000
MOUT assault course range	+954,000
MOUT range	+2,600,000
Florida—Lakeland: Armory and aviation support facility	+5,153,000
Florida—Tallahassee: Armory addition	+479,000
Florida—Vero Beach: Weekend training site	+5,300,000
Iowa—Camp Dodge: Armory	+9,398,000
Maryland—Fort Ritchie: Armory	+1,800,000
Maryland—Laurel: Armory	+4,959,000
Minnesota—Camp Ripley: Maintenance facility addition	+6,108,000
Mississippi—Camp McCain:	
Tank tables nine and eleven	+600,000
Troop issue subsistence activity	+780,000
Ammunition supply point	+500,000
Mississippi—Camp Shelby:	
Bachelor officer quarters (Phase III)	+450,000
Ammunition supply point	+280,000
Mississippi—Durant: Add/alter armory	+780,000
Mississippi—Fulton: Add/alter armory	+535,000
Mississippi—Starkville: Add/alter armory	+975,000

North Carolina—Goldsboro:	
Armory	+1,663,000
Organizational maintenance shop	+394,000
Ohio—Muskingum County: Land acquisition	+6,000,000
Oklahoma—Camp Gruber:	
Barracks (Phase III)	+3,332,000
Water treatment plant	+1,204,000
Oregon—Pendleton: Armory	+1,542,000
Oregon—Monmouth: Military education facility	+4,060,000
Pennsylvania—Butler: Armory	+2,223,000
Pennsylvania—Fort Indiantown Gap: Combined support maintenance shop	+2,790,000
Pennsylvania—Norristown: Armory	+3,028,000
South Carolina—Fountain Inn: Armory	+2,000,000
South Carolina—Greenwood: Armory	+2,000,000
South Carolina—Pickens: Armory	+2,000,000
Texas—Camp Bowie:	
Armory	+2,142,000
Land acquisition	+1,901,000
Texas—Camp Mabry: Armory	+6,284,000
Texas—Camp Swift: Upgrade and expand sewer system	+600,000
Texas—Dallas (Redbird): Add/alter armory	+2,000,000
Texas—North Fort Hood: Mobilization and training equipment site expansion	+14,369,000
Texas—Waco:	
Add/alter armory	+2,162,000
Expand organizational maintenance shop	+726,000
Texas—Wylie: Armory	+2,227,000
Virginia—Emporia: Armory	+1,700,000
Washington—Tacoma: Watercraft support and training complex	+2,863,000
Wisconsin—Madison: Armory	+7,372,000
Wisconsin—Waukesha: Armory complex	+1,341,000
Air National Guard:	
Colorado—Buckley ANGB:	
Operations and training facility	+4,150,000
Fire Station	+1,800,000
Connecticut—East Granby: Composite support facility	+1,900,000
Florida—Camp Blanding:	
Civil engineering maintenance facility	+1,500,000
Civil engineering heavy equipment shop	+1,000,000
Vehicle maintenance complex	+1,300,000
Florida—Jacksonville: Add/alter vehicle maintenance facility	+700,000
Massachusetts—Barnes ANGB, Westfield: Jet fuel storage complex	+3,000,000
Minnesota—Minneapolis-St. Paul IAP:	
Composite support facility	+4,350,000
Dining hall and medical training facility	+3,700,000
Flight training simulator	+3,000,000

Army National Guard

MISSISSIPPI PROGRAM

The conferees direct the Army National Guard to continue to maintain a balanced distribution of projects throughout the State of Mississippi, and to report by February 1, 1991 on how equitable distribution is being assured.

TEXAS—CAMP SWIFT: UPGRADE AND EXPAND SEWER SYSTEM

The Committee has approved $600,000 to upgrade and expand the sewer system at Camp Swift, Texas. This project includes permanently capping abandoned branch lines to preclude infiltration into and out of the completed system.

VIRGINIA—ARLINGTON HALL STATION: NATIONAL GUARD CENTER

The Congress has provided full funding for construction of the National Guard Center at Arlington Hall Station, Virginia which is scheduled for completion no earlier than 1992. Therefore, the Committee prohibits the use of any funds for the purpose of transferring personnel from Edgewood Arsenal, Maryland to the Arlington Hall Station. The Committee remains concerned with unnecessary interim moves and directs the Bureau to avoid any such movement during fiscal year 1991.

Air National Guard

NORTH CAROLINA—STANLY COUNTY AIRPORT, ALBEMARLE: EXTEND RUNWAY

The Committee remains concerned about the priority given the National Guard and the Reserves by the Department of Defense. The Air National Guard mission in North Carolina has been restricted by the congested air space in both the Charlotte and Fayetteville area. This has caused considerable difficulty in scheduling the needed training to keep the air crews proficient. To help alleviate this problem the Committee has included $1,850,000 to upgrade the Stanly County airport to allow the Air National Guard to perform needed training in a low congestion environment.

Army Reserve

INDIANA—SOUTH BEND: RENOVATION AND IMPROVEMENT OF ARMY RESERVE CENTER

As part of the real estate exchange with the City of South Bend, Indiana, the Army Reserve must relocate two units to a property formerly known as the Maple Lane School. Renovation of the existing facility and construction of improvements are necessary to satisfy the long term facility requirements of the Army Reserve. The City of South Bend has committed to provide $500,000 for renovations. This Committee approved a reprogramming in August, 1989

in the amount of $935,000 for the Federal share of this project. An additional $397,000 is necessary to meet the revised cost estimate for this project. Therefore, the Army Reserve is directed to provide these funds through the minor construction account.

PENNSYLVANIA—JOHNSTOWN: JOINT ARMY RESERVE/MARINE CORPS RESERVE AVIATION FACILITY

The Committee has approved an increase of $1,300,000 to the budget request for planning and design for the Army Reserve, for design of a Joint Army Reserve/Marine Corps Reserve Aviation Facility. The Army Reserve will act as the executive agent for this project. The Committee directs the Army Reserve and the Department to submit a budget request for construction funding in the earliest fiscal year in which the project will be executable.

Family Housing Overview

NEW CONSTRUCTION

The Committee has approved all requested projects for the construction of family housing units. The Committee expects that none of the approved projects will be reduced in scope.

CONSTRUCTION IMPROVEMENTS

A total of $260.2 million has been requested for post-acquisition construction for all Services. The Committee recommends a level of $261.4 million. This action is taken based on the specific projects itemized later in this report.

The Committee continues the restriction on the amount invested in improving foreign source housing units. The three-year limitation on overseas units is $35,000. If the Services intend to program improvements to specific units which exceed $35,000 over a period of three years, total funding should be requested in one year. The justification for each unit should identify all improvements and major maintenance work done in the past three years, and all improvements and major maintenance planned in the following three years.

OPERATION AND MAINTENANCE

The request for operation and maintenance expenses totals $3.0 billion, an increase of nine percent above the fiscal year 1990 level. This account provides for furnishings, management, services, utilities, leasing, maintenance, interest, mortgage insurance, and miscellaneous expenses. The Committee's recommendation includes reductions from the amounts requested for furnishings, leasing, and maintenance, due to budget constraints.

Expenditures from this account for general and flag officer quarters are to be reported in accordance with the guidelines previously established and reiterated later in this report. The Committee also directs that the details of all other expenditures from this account which exceed $15,000 per unit per year for major maintenance and repair of non-general and flag officer quarters be included as part

of the justification material. The general provision limiting obligations from this account to no more than 20 percent of the total in the last two months of the fiscal year is included in this year's bill.

TRANSFER THRESHOLDS

The Committee continues the restriction on the transfer of funds between the operation and maintenance accounts. The limitation is ten percent to all primary accounts and subaccounts. Such transfers are to be reported to the Committee within 30 days of such action.

GENERAL AND FLAG OFFICER QUARTERS

The existing reporting requirements for general and flag officer quarters continue in full force and effect, in order to control expenditures for high cost quarters. The purpose of these requirements is to ensure that the total amount of all obligations for maintenance and repair (excluding operations) on each general or flag officer quarters is limited to $25,000 per year unless specifically included in the annual budget justification material. This continues the policy initiated in 1984 and developed and elaborated over several years, to ensure that separate controls are established for orderly planning and programming to accomplish this work.

Recognizing the uncertainties involved in accurately forecasting "change in occupancy" work, the Committee continues the previously established notification requirement. The Committee must be notified when maintenance and repair costs for a unit will exceed the amount submitted in the budget justification by 25 percent or $5,000, whichever is less. The Committee must also be notified when maintenance and repair costs will exceed $25,000 for a unit not requested in the budget justification.

Notifications of such proposed expenditures must be submitted over the signature of the Service Secretary for case-by-case review and approval. Each Service is directed to continue to limit out-of-cycle submissions to one per year, except for situations which are justified as emergencies or safety-related.

SPACE LIMITATIONS

Section 2826 of Title 10 of the United States Code includes statutory limits on the net square footage of family housing units for general and flag officers. Testimony before the Committee indicates that the Services have a total of 925 general and flag officer quarters, and that 702 of these housing units, or 76%, exceed the present statutory limitations. The Department has gotten into this position by seeking waivers to the space limitations for several sets of quarters each year, until 76% of the total inventory has been exempted from the limitations. The Committee directs the Department to cease requests for waivers to existing law, and to propose modifications to the law if that is deemed necessary and appropriate.

LEASING

The Committee takes note that the request for leasing expenses totals $617 million, an increase of 30 percent above the fiscal year

1990 level, and an increase of 63 percent above the fiscal year 1989 level. The Committee recommends a reduction of $10,000,000 from the budget request.

REPORTING REQUIREMENT

The Committee continues the reporting requirement for both domestic and foreign leases. For domestic leases, the Department is directed to report quarterly on the details of all new or renewal domestic leases entered into during the previous quarter which exceed $12,000 per unit per year, including certification that less expensive housing was not available for lease. For foreign leases, the Department is directed to: perform an economic analysis on all new leases or lease/contract agreements where more than 25 units are involved, report the details of any new or renewal lease exceeding $20,000 per year (as adjusted for foreign currency fluctuation from October 1, 1987, but not adjusted for inflation), 21 days prior to entering into such an agreement; and base leasing decisions on the economic analysis.

SECTION 801/802 LEASING

The Committee notes that existing reporting requirements for the Section 801 and 802 programs are still in effect, without modification. The requirements are as follows: submit the cost ceiling for each Section 801 project prior to advertising the project; submit an economic analysis 21 days prior to entering into an 801 or 802 contract; and show a savings of at least five percent for each 801 or 802 project, compared to military construction alternatives.

REPROGRAMMING CRITERIA

The reprogramming criteria that apply to military construction projects continue to apply to new housing construction projects and to improvements projects over $1.5 million.

FAMILY HOUSING OFFICES AND MAINTENANCE FACILITIES

The Committee has reviewed 10 U.S.C. 2921(c)(3), which states that amounts provided for construction of military family housing units may include amounts for ancillary supporting facilities. Therefore, the Committee recommends funding for specified projects for community support facilities, and for maintenance and administrative buildings under the family housing accounts.

CONTRACT CLEANING OF FAMILY HOUSING QUARTERS

The Committee has included, under "General Provisions", bill language which limits contract cleaning of family housing quarters to $16 million for fiscal year 1991. This is a reduction of $9 million from the amount of the limitation in fiscal year 1990. Testimony before the Committee indicates that contract cleaning will be phased out in the contiguous United States by fiscal year 1991. At that time, contract cleaning will be performed only at overseas locations, as well as Alaska and Hawaii, where savings can be documented by reduced requirements for temporary lodging allowances. Therefore, the full amount of contract cleaning funds requested for fiscal year 1991 totals $15,965,000.

The Committee understands that an average cost of about $200 per unit for cleaning quarters is appropriate. The Committee expects this average cost to be maintained.

FAMILY HOUSING, ARMY

Fiscal Year 1990 Appropriation	$1,453,982,000
Fiscal Year 1991 Estimate	1,554,450,000
Committee Recommendation in the Bill:	
Appropriation	1,525,767,000
Rescission	−12,664,000
Net	1,513,103,000
Comparison with:	
Fiscal Year 1990 Appropriation	+59,121,000
Fiscal Year 1991 Estimate	−41,347,000

The Committee recommends a net total of $1,513,103,000 for Family Housing, Army for fiscal year 1991. This is a decrease of $41,347,000 below the budget request for fiscal year 1991, and an increase of $59,121,000 above the amount appropriated for fiscal year 1990.

CONSTRUCTION

The Committee has approved $61,800,000 for new construction, the full amount of the budget request, as shown below:

Location/Project	Requested	Recommended
New Construction:		
Hawaii-Various Oahu Locations:		
138 units	$15,000,000	$15,000,000
Construction Improvements	44,100,000	44,100,000
Planning	2,700,000	2,700,000
Total, Construction	61,800,000	61,800,000

LEASING

CALIFORNIA—FORT HUNTER-LIGGETT

The Army is currently out-leasing land with improvements at Fort Hunter-Liggett for the purpose of providing a mobile home park. The mobile home park supports the housing requirements for Fort Hunter-Liggett. The Committee understands the Army is negotiating to modify the conditions of the lease to continue support to the Army. However, the Committee further understands that these negotiations have been delayed by the Army. The Committee therefore requests the Army to continue these efforts in as expeditious a manner as possible, and provide the Committee with a report on the progress of negotiations by September 30, 1990.

FAMILY HOUSING, NAVY AND MARINE CORPS

Fiscal Year 1990 Appropriation	$798,321,000
Fiscal Year 1991 Estimate	904,500,000
Committee Recommendation in the Bill:	
Appropriation	876,101,000

Rescission	−11,037,000
Net	865,064,000
Comparison with:	
Fiscal Year 1990 Appropriation	+66,743,000
Fiscal Year 1991 Estimate	−39,436,000

The Committee recommends a net total of $865,064,000 for Family Housing, Navy for fiscal year 1991. This is a decrease of $39,436,000 below the budget request for fiscal year 1991, and an increase of $66,743,000 above the amount appropriated for fiscal year 1990.

CONSTRUCTION

The Committee has approved $185,000,000 for new construction, the full amount of the budget request, as shown below:

Location/Project	Requested	Recommended
New Construction:		
California:		
Marine Corps Base Camp Pendleton: 116 units	$11,805,000	$11,805,000
Naval Station Long Beach: 300 Units	25,018,000	25,018,000
Pacific Missile Test Center Point Mugu: Office	513,000	513,000
Public Works Center San Diego: 300 units	31,880,000	31,880,000
New York—Naval Station New York: 150 units	19,692,000	19,692,000
Virginia:		
Little Creek Naval Amphibious Base: Community Center	372,000	372,000
PWC Norfolk: Community Center	417,000	417,000
PWC Norfolk: Community Center	417,000	417,000
Bermuda-Naval Air Station: Office	378,000	378,000
Cuba—Naval Station Guantanamo Bay: 134 units	18,409,000	18,409,000
Iceland—Naval Air Station Keflavik: 112 units	27,479,000	27,479,000
Construction Improvements	42,420,000	42,420,000
Planning	6,200,000	6,200,000
Total, Construction	185,000,000	185,000,000

CALIFORNIA—MARE ISLAND NAVAL SHIPYARD: 300 UNITS

The Navy is directed to initiate design of 300 units of family housing for the Mare Island Naval Shipyard, contingent upon continuation of a housing deficit in the area.

CALIFORNIA—SAN DIEGO: HOUSING SITES

The Navy is directed to report to the Committee by February 15, 1991 on its progress in acquiring land for future family housing sites in the San Diego area. This report should include a detailed analysis of the problems confronted in acquiring sites due to a lack of impact aid funding.

FAMILY HOUSING, AIR FORCE

Fiscal Year 1990 Appropriation	$939,726,000
Fiscal Year 1991 Estimate	971,900,000
Committee Recommendation in the Bill:	
Appropriation	956,542,000
Rescission	−45,964,000
Net	910,578,000

Comparison with:	
Fiscal Year 1990 Appropriation	−29,148,000
Fiscal Year 1991 Estimate	−61,322,000

The Committee recommends a net total of $910,578,000 for Family Housing, Air Force for fiscal year 1991. This is a decrease of $61,322,000 below the budget request for fiscal year 1991, and a decrease of $29,148,000 below the amount appropriated for fiscal year 1990.

CONSTRUCTION

The Committee has approved $185,100,000 for new construction, instead of the $182,600,000 requested, as shown below:

Location/Project	Requested	Recommended
New Construction:		
Nevada—Nellis AFB: Office	$235,000	$235,000
New Mexico—Holloman AFB:		
Maintenance Facility	219,000	219,000
South Carolina:		
Charleston AFB: Office and Maintenance Facility	592,000	592,000
Myrtle Beach AFB: Office	258,000	258,000
South Dakota—Ellsworth AFB: Office	313,000	313,000
Texas—Kelly AFB: 11 units		1,369,000
Guam—Andersen AFB: Supply and Storage Facility	1,371,000	1,371,000
Construction Improvements	173,612,000	174,743,000
Planning	6,000,000	6,000,000
Total, Construction	182,600,000	185,100,000

ARKANSAS—EAKER AFB: CONSTRUCTION IMPROVEMENTS

The budget request includes $10,169,000 for Phase II of the construction improvement project at Eaker AFB, Arkansas. This phase of the project was funded in the fiscal year 1990 appropriations bill. The Committee has approved an increase of $1,131,000 to the amount requested for the construction improvement account, in order to provide a total of $11,300,000 for Phase III which will accomplish improvements to 186 family housing units.

TEXAS—KELLY AFB: 11 UNITS

The Committee has approved $1,369,000 for construction of 11 family housing units at Kelly AFB, Texas. This project was proposed but not funded in fiscal year 1990, at a total cost of $1,619,000. The project includes five general officer quarters which were proposed to exceed the present statutory limitations on net square footage. As discussed earlier in this report, the Committee opposes waivers to section 2826 of Title 10 of the United States Code, and has reduced this project accordingly.

FAMILY HOUSING, DEFENSE AGENCIES

Fiscal Year 1990 Appropriation	$21,124,000
Fiscal Year 1991 Estimate	21,100,000

Committee Recommendation in the Bill:	
Appropriation	21,014,000
Rescission	−300,000
Net	20,714,000
Comparison with:	
Fiscal Year 1990 Appropriation	−410,000
Fiscal Year 1991 Estimate	−386,000

The Committee recommends a total of $20,714,000 for Family Housing, Defense Agencies for fiscal year 1991. This is a decrease of $386,000 below the budget request for fiscal year 1991, and a decrease of $410,000 below the amount appropriated for fiscal year 1990.

CONSTRUCTION

The Committee has approved $400,000 for new construction of three housing units at classified locations overseas, as well as $100,000 for construction improvements. These amounts are equal to the budget request.

HOMEOWNERS ASSISTANCE FUND

Fiscal Year 1990 Appropriation	$5,100,000
Fiscal Year 1991 Estimate	5,100,000
Committee Recommendation in the Bill	5,100,000
Comparison with:	
Fiscal Year 1990 Appropriation	
Fiscal Year 1991 Estimate	

The Committee recommends a total of $5,100,000 for the Homeowners Assistance Fund for fiscal year 1991. This is equal to the budget request for fiscal year 1991, and equal to the amount appropriated for fiscal year 1990.

This fund assists military and civilian employee homeowners by reducing their losses when the scope of operations is reduced at the installation where they work.

BASE REALIGNMENT AND CLOSURE ACCOUNT

Fiscal Year 1990 Appropriation	$500,000,000
Fiscal Year 1991 Estimate	916,500,000
Committee Recommendation in the Bill	998,100,000
Comparison with:	
Fiscal Year 1990 Appropriation	+498,100,000
Fiscal Year 1991 Estimate	+81,600,000

The Committee recommends a total of $998,100,000 for the Base Realignment and Closure Account for fiscal year 1991. This is an increase of $81,600,000 above the budget request for fiscal year 1991, and an increase of $498,100,000 above the amount appropriated for fiscal year 1990.

ENVIRONMENTAL RESTORATION

The Committee recommends earmarking within available base closure funds, $81,600,000 for environmental restoration work at the affected realigned or closed bases. The recommended funds are as requested by the Department but were included in the budget under the Defense Environmental Restoration Account and various Operation and Maintenance Accounts. The Committee feels strong-

ly that environmental cleanup costs for base realignments and closures belong with the base closure account in order to ensure that funding is available and environmental cleanup is given priority as well as providing accountability for costs associated with base closure. Therefore, the Department is directed, in the fiscal year 1992 budget, to include requests for environmental restoration for base closure as a part of the Base Closure Account.

MASSACHUSETTS—FORT DEVENS: WEST MAIN STREET BRIDGE

The Committee directs the Secretary of Defense to study and report on the certification, as required by Section 103 of this bill, for an access road project to upgrade or replace the West Main Street Bridge over the B&M Railroad Line. The Committee will expect this project to be accomplished within funds provided in this bill for the Base Realignment and Closure Account, contingent upon certification.

PENNSYLVANIA—TOBYHANNA ARMY DEPOT: COMMUNICATIONS SECURITY (COMSEC) FACILITY

As a part of the Department's fiscal year 1991 justification for Base Realignment and Closure funds, the Department is requesting $13,200,000 for a Communications Security (COMSEC) facility at Tobyhanna Army Depot. The Committee supports the request and directs the Department to initiate construction of the facility in fiscal year 1991.

NEW BASE REALIGNMENT AND CLOSURE ACCOUNT

The Committee notes that any funds deposited into the Base Realignment and Closure Account are required to be used solely for projects and activities associated with the Base Realignment and Closure Commission recommendations pursuant to Public Law 100–526. In connection with any request for funds associated with other base realignments or closures, the Department is directed to establish a separate Base Realignment and Closure Appropriations Account and request funds under that account.

FORT MEADE, MARYLAND LAND TRANSFER

The Committee has included language which provides for the transfer of 7,600 acres of the environmentally sensitive portion of the surplused Fort Meade property to the Department of the Interior. The Committee has provided that the airfield, comprised of 400 acres and an additional 1,000 acres of property, will be available for sale pursuant to the procedures outlined in the Base Realignment and Closure Act. The remaining property is of such environmental significance to wildlife, the Chesapeake Bay, and migratory birds, that the Committee has provided for its transfer to the Department of the Interior in conformance with the goals established in title 16, section 667(b). The Committee directs the Army to perform a sweep of all property to be transferred to the Department of Interior in such a manner that will not disturb the environmental quality of the area or its wildlife habitat. The Committee notes that an expensive cleanup of the site will be averted through the transfer of the environmentally significant areas, since the Depart-

ment of Interior has made clear that the site will be limited access and the goal will be to preserve the wildlife habitat which would otherwise be destroyed through a total cleanup of the site. The Committee also notes, however, that should contamination caused by the Army on the transferred property become a threat to either the public health and safety or an environmental hazard, that the Army will maintain responsibility for the cleanup of such contamination and is directed to work with the Department of the Interior to accomplish such cleanup in as environmentally responsible manner as possible.

General Provisions

The bill carries a number of routine General Provisions that have been included for a number of years.

The Committee recommends four General Provisions which have not been included heretofore, as follows:

Sec. 124. None of the funds herein or heretofore appropriated for Military Construction and Family Housing are available to fund costs associated with military operations in Panama known as Operation Just Cause, notwithstanding transfer authority contained in Section 211 of Public Law 101-302.

Sec. 125. The Committee disapproves the deferrals relating to the Department of Defense as set forth in the message from the Comptroller General transmitted to the Congress on June 28, 1990 (H. Doc. 101-210). The disapproval shall be effective upon enactment into law of this Act.

Sec. 126. The Committee recommends transfer of 7,600 acres at Fort Meade, Maryland to the Department of the Interior.

Sec. 127. The Committee recommends transfer of 6.69 acres to the city of Tacoma in exchange for a 50-year leasehold interest in and to Pier 23 at the Port of Tacoma.

Rescission of Funds

Pursuant to clause 1(b), Rule X of the House of Representatives, the following information is provided with regard to rescissions included in the accompanying bill:

Account	Funds Appropriated In Fiscal Year	By Public Law	Recommended Rescission
Military Construction, Army	1986	99-173	$1,900,000
Military Construction, Army	1987	99-500/591	14,905,000
Military Construction, Army	1988	100-202	29,030,000
Military Construction, Army	1989	100-447	26,910,000
Military Construction, Army	1990	101-148	44,000,000
Military Construction, Navy	1990	101-148	6,200,000
Military Construction, Air Force	1989	100-447	4,700,000
Military Construction, Air Force	1990	101-148	20,690,000
Military Construction, Defense Agencies	1989	100-447	35,578,000
Military Construction, Defense Agencies	1990	101-148	32,541,000
Family Housing, Army	1988	100-202	4,264,000
Family Housing, Army	1989	100-447	8,400,000
Family Housing, Navy and Marine Corps	1990	101-148	11,037,000
Family Housing, Air Force	1988	100-202	1,941,000
Family Housing, Air Force	1989	100-447	167,000
Family Housing, Air Force	1990	101-148	43,856,000

Account	Funds Appropriated In Fiscal Year	By Public Law	Recommended Rescission
Family Housing, Defense Agencies	1990	101-148	300,000
Total			286,419,000

Information on individual projects affected by these rescissions is provided earlier in this report.

Changes in Application of Existing Law

Pursuant to clause 3, Rule XXI of the House of Representatives, the following statements are submitted describing the effect of provisions in the accompanying bill which directly or indirectly change the application of existing law.

1. A provision of the "Military Construction, Air Force" account states that herein and hereafter, the Ballistic Missile Organization shall not be relocated from Norton Air Force Base, California.

2. A provision of the "North Atlantic Treaty Organization Infrastructure" account prohibits the obligation of any funds in this Act, as well as prior year unobligated funds and recoupments, for planning, design, or construction of military facilities or family housing to support the relocation of the 401st Tactical Fighter Wing to Crotone, Italy, until December 31, 1990.

3. A provision of the "Base Realignment and Closure Account" states that none of the funds may be obligated for base realignment and closure activities which would cause the Department's $2,400,000,000 cost estimate for military construction and family housing related to the Base Realignment and Closure Program to be exceeded.

4. A provision of the "Base Realignment and Closure Account" states that $81,600,000 of the funds appropriated in this Act shall be available solely for environmental restoration.

5. Section 104 of the General Provisions states that none of the funds appropriated in this Act may be used to begin construction of new bases inside the continental United States for which specific appropriations have not been made.

6. Section 111 of the General Provisions continues the threshold of $500,000 relating to Architect and Engineer Services in Japan and in any NATO member country.

7. Section 112 of the General Provisions establishes preference for American contractors for military construction in the United States territories and possessions in the Pacific and on Kwajalein Island.

8. Section 113 of the General Provisions requires the Secretary of Defense to give prior notice to Congress of military exercises involving construction in excess of $100,000.

9. Section 116 of the General Provisions states that funds appropriated in prior years are available for construction projects authorized during the current session of Congress.

10. Section 117 of the General Provisions directs the Secretary of Defense to report the specific actions to be taken during fiscal year 1990 to encourage other member nations of the North Atlantic

Treaty Organization and Japan to assume a greater share of the common defense burden.

11. Section 118 of the General Provisions permits the use of lapsed funds to pay the cost of supervision for any project being completed with lapsed funds.

12. Section 119 of the General Provisions continues financial management authority to obligate funds from more than one fiscal year to execute a construction project, provided that the total obligation for such project is consistent with the total amount appropriated for that project.

13. Section 120 of the General Provisions limits the availability of funds for contract cleaning of family housing units.

14. Section 123 of the General Provisions limits the availability of funds for relocation of a military compound in Seoul, Korea.

15. Section 124 of the General Provisions prohibits the transfer of military construction and family housing funds to fund military operations in Panama associated with Operation Just Cause.

16. Section 125 of the General Provisions disapproves deferrals as reported by the Comptroller General in his message to the Congress of June 28, 1990 and directs that funds be obligated immediately.

17. Section 126 of the General Provisions recommends transfer of 7,600 acres at Fort Meade, Maryland to the Department of the Interior.

18. Section 127 of the General Provisions recommends transfer of 6.69 acres to the city of Tacoma, Washington, in exchange for a 50-year leasehold interest in and to Pier 23 at the Port of Tacoma.

19. Section 128 of the General Provisions prohibits the use of military construction and family housing funds for relocation of the 401st Tactical Fighter Wing from Spain to another country.

20. Section 129 of the General Provisions states that such sums as may be necessary for fiscal year 1991 pay raises for programs funded by this Act shall be absorbed within the levels appropriated in this Act.

Transfer of Funds

Pursuant to clause 1(b), Rule X of the House of Representatives, a statement is required describing the transfer of funds provided in the accompanying bill. Sections 114 and 116 of the General Provisions, and language included under "Military Construction, Defense Agencies" provide certain transfer authority.

Inflationary Impact Statement

Pursuant to clause 2(l)(4), Rule XI of the House of Representatives, the Committee estimates that enactment of this bill would have no overall inflationary impact on prices and costs in the operation of the national economy.

Comparisons With Budget Resolution

Section 308(a)(1)(A) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93-344), as amended, requires that the report accompanying a bill providing new budget

authority contain a statement detailing how that authority compares with the reports submitted under section 302 of the Act for the most recently agreed to concurrent resolution on the budget for the fiscal year. This information follows:

[Dollars in millions]

	Sec. 302(b)		This bill	
	Discretionary	Mandatory	Discretionary	Mandatory
Budget authority	$8,500	0	$8,311	0
Outlays	8,700	0	8,691	0
Direct loans	0	0	0	0
Primary guarantees	0	0	0	0

Advance Spending Authority

Section 308(a)(1)(B) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93-344), as amended, requires that the report accompanying a bill providing new budget authority contain an identification of any new spending authority described in section 401(c)(2) of the Act, that is, authority to make payments for which budget authority is not provided in advance. This bill provides no such authority.

Five-Year Projection of Outlays

In accordance with section 308(a)(1)(C) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93-344), as amended, the following information was provided to the Committee by the Congressional Budget Office:

[Dollars in thousands]

Budget authority, FY 1991	$8,311,167
Outlays:	
1991	3,123,644
1992	2,899,356
1993	1,322,250
1994	553,286
1995	412,631

The bill will not affect the levels of revenues, tax expenditures, direct loan obligations, or primary loan guarantee commitments under existing law.

Financial Assistance to State and Local Governments

In accordance with section 308(a)(1)(D) of Public Law 93-344, the new budget authority and outlays provided by the accompanying bill for financial assistance to State and local governments are as follows:

[Dollars in thousands]

New budget authority	$40,000
Fiscal year 1991 outlays resulting therefrom	40,000

STATE LIST

The following is a complete listing, by State and country, of the Committee's recommendations for military construction and family housing projects:

MILITARY CONSTRUCTION (IN THOUSANDS OF DOLLARS)
